NOTES :

1. When a ship departs from a port situated on a river or inland waters, deeper loading shall be permitted corresponding to the weight of fuel and all other materials required for consumption between the point of departure and the sea.
2. When a ship is in fresh water of unit density the appropriate load line may be submerged by the amount of fresh water allowance shown above. Where the density is other than unity, the allowance shall be made proportional to the difference between 1.025 and the actual density.
3. This certificate must be kept framed and posted up in a conspicuous place on board the ship, so long as the certificate remains in force and the ship is in use.
4. Insert the date of expiry as specified by the Administration in accordance with article 19(1) of the Convention. The day and the month of this date correspond to the anniversary date as defined in article 2(9) of the Convention, unless amended in accordance with article 19(8) of the Convention.
5. Completion date of the survey on which this certificate is based: **07/03/2018** dd/mm/yyyy.

ENDORSEMENT FOR ANNUAL SURVEY

This is to certify that, at an annual survey required by article 14(1)(c) of the Convention, the ship was found to comply with the relevant requirements of the Convention.
